Rafael Delgado

Hello! I'm a programmer who has successfully completed a two-year program in advanced programming. I'm passionate about what I've learned, and I have a diverse skill set that includes both backend and frontend development. My primary focus is on frontend development and design. I enjoy creating visually appealing and user-friendly websites and applications. Welcome to my portfolio, where you can explore some of the exciting projects I've worked on. Let's dive into the world of coding and design together!

If you have any questions or need to see specific examples of my work, please don't hesitate to get in touch. I'm excited about the possibility of collaborating on future projects and continuing to develop my skills as a programmer and designer. Let's discuss your ideas and how we can bring them to life!

Rafael Delgado

Hello dear, I am Graphic Designer. My love to design poster, logo, id card, font, car wrapping etc.

I start my Journey by editing photos, manipulating images, etc. when I was in my college, I love creating graph, model for the equation or thesis. I started my design carrier from college because my bought my first laptop at that time. I am so excited and from there I start my Graphic Design Journey.

After 3rd sem of my college I completed my Graphic Design course from Lakshya Institute (dumka, Jharkhand(india)). And I started my carrier as a graphic designer. After that I design many things for tuition schools and some small shops or events. Then I start Freelancing at upwork.com, upwork.com and fiverr.com. And I also create my portfolio website so that every one should know about me. It takes nearly 1 to 2 month for getting my first work in upwork.com.

Reviews

Exelente.

Me gusta su perro.

Me ha robado.

He trabajado con el y he de decir que he aprendido mucho a no hacer nada.

Tiene un coche color plata.

Mockup 4 (Middle Right): Contact Form

Resolución

Se ha optado por un diseño más moderno que el del mockup aunque se ha seguido la estructura de este
